

Measurement Guide

1. Wall to wall (1) _____ mm
2. Wall to wall (2) _____ mm
3. Floor to ceiling/bulkhead (incl cornice) _____ mm
4. Window (incl architraves) width _____
height _____ depth _____ mm
5. Floor to bottom of window _____ mm
6. Wall to side of window _____ mm
7. Windows to ceiling _____ mm
8. Door width (incl architrave) _____ mm
9. Wall to doorway _____ mm
10. Waste pipe to wall _____ mm
11. Waste pipe to floor _____ mm
12. Hot pipe _____ mm
Cold pipe _____ mm
13. Fridge width _____
height _____ depth _____ mm
14. Oven width _____
height _____ depth _____ mm
15. Cooktop (gas or induction) width _____
height _____ depth _____ mm
16. Sink width _____ mm
17. Microwave width _____
height _____ depth _____ mm
18. Mark the location of service points - power points (PP),
Gas points (G)
19. Mark any other structural fixtures like pillars, posts, etc.

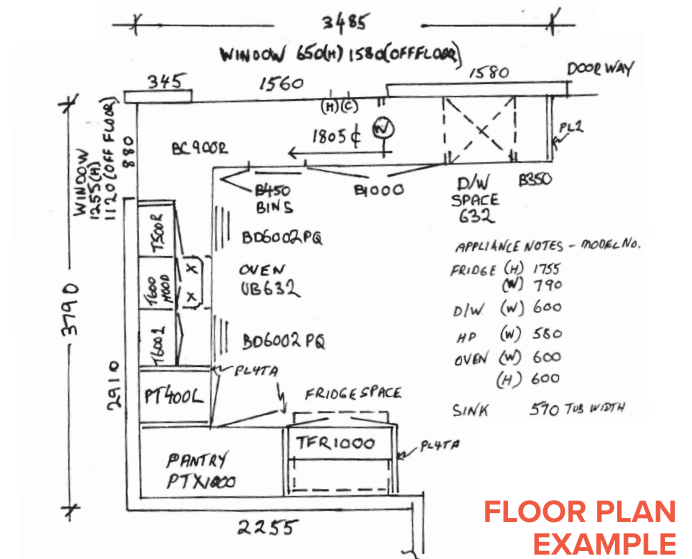

TOP TIPS

Tip 1: For measuring floor to ceiling height, it can be easier to break up into sections. For example, measure floor to existing bench height then bench to ceiling and add together.

Tip 2: Remember the thickness of tiles/splashbacks when measuring space.

Tip 3: Take lots of photos.

ROWVILLE
